

LYNCHBURG COURTHOUSE MUSEUM REHABILITATION

IN ASSOCIATION WITH CJMW ARCHITECTURE
NATIONAL REGISTER OF HISTORIC PLACES - BUILDING #72001508

The project included a complete restoration of this 1855 historic courthouse, one of the oldest and most cherished structures in Lynchburg. While every surface of the museum was addressed in one fashion or another, the scope of work also entailed significant and structural repairs; state-of-the-art mechanical and electrical systems replacement; above grade and sub-grade masonry restoration; below grade foundation drainage; architectural millwork replication; and a historically correct reassembly and erection of the crowning bell tower cupola.

This is an award-winning project:

- *2006 Gabriella Page Historic Preservation Award for Outstanding Preservation Project in the Commonwealth of Virginia* - Awarded by APVA Preservation Virginia
- *2008 Award for Excellence in Building Development & Improvements* - Awarded by Virginia Downtown Development Association
- *2008 Honor Award for Preservation* - Awarded by AIA Blue Ridge Chapter
- *2008 Award for Excellence* - Awarded by Southeastern Museum Conference
- *2009 Merit Award* - Awarded by Lynchburg Historical Foundation
- *2010 Design Award of Merit* - Awarded by AIA Blue Ridge Chapter
